## Objective

Following the conferences held in Zurich, Geneva and The Hague in recent years, FORUM Institute of Management is organising the 6<sup>th</sup> International Trademark Conference to be held 28-29 April 2005 at the OHIM, Alicante.

Once again a very distinguished panel of international experts will focus on the most topical issues affecting today's trademark law.

The emphasis will be on key questions relating to the enlargement of the European Union, the adherence of the EU to the Madrid Protocol, absolute grounds for refusal and the protection of the well-known trademark. We will also look at the enforcement of trademark rights in the EU and in Russia.

The Conference has been designed to give delegates ample opportunities for discussion and for the exchange of views with expert speakers and other conference delegates. Thus, the 6<sup>th</sup> International Trademark Conference will once again offer a forum for professional networking and for keeping up-to-date with current developments in this important field of intellectual property rights.

Welcome to Alicante, and welcome to the 6<sup>th</sup> International Trademark Conference, we are looking forward to seeing you.

- Patent Agents and Patent Attorneys

## Number of participants

The seminar is restricted to 25 participants.

This limitation, a feature of all FORUM seminars, will give participants the opportunity for a thorough discussion of the complex issues to be covered by this programme.

## Objective

As one of the world's fastest growing economies, China is a major centre for manufacturing goods to be imported to the European Union, but it is also a huge market with a fast growing demand for quality and luxury goods.

China unfortunately is also the world's centre of counterfeit and product piracy. A very high level of organisation among the counterfeiters serve as an ideal environment for trademark piracy.

The workshop will look at doing business in China from an IP owner's perspective. In this respect we will discuss the protection of trademark rights in China and also compare these to European practice. The workshop will address the enforcement of Trademark rights in China, the set-up of distribution systems and licensing agreements. It will also provide a comprehensive overview of anti-counterfeiting measures available in China and how they are effectively applied.

There will be ample opportunity to discuss specific problems and to exchange experiences with all participants.
