storage of spare parts for third parties as well as of technical and other consumables such as for example cleansing agents and toilet paper in connection with the maintenance and servicing of buildings; transportation of cellular phone for repair purposes (cellular phone repair pick-up service).

(511) **Klasse 40:** Material processing; technical treatment of water and waste water; waste water disposal by waste water treatment; fresh water treatment; recycling of waste and trash; recycling and disposal of waste and trash by compost preparation, chemical transformation, treatment, destruction and combustion; thermal disposal; destruction of waste and trash; generation of energy and heat (local and district heat); generation of energy by the operation of fuel cells, wind power plants and photovoltaic plants; exhaust air purification; incineration of waste and trash; key copying services; operation of refuse treatment plants; technical operation of power stations, coal-fired power stations, gas and steam turbine power stations, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and wind power stations, photovoltaic installations and transformer stations, solar power stations, wind power stations and bio-gas power stations.

(511) **Klasse 41:** Education, training, sporting and cultural activities; entertainment, also on the Internet; performance of games, also online; issuing of publishing and printed matter in electronic form, also in intranets and on the Internet; personnel training; planning and execution of educational events; operation of public swimming pools.

(511) **Klasse 42:** Scientific and technological services and research work and designer services in this respect; services of an engineer for gas, water and district heat networks; industrial analysis and research services; design and development of computer hardware and software; legal advice and representation; weather forecast, also online; scientific and industrial research and development; environmental services, namely environmentally related consultation, technical development of concepts for the environmental risk management; technical planning, technical consultation and technical activity of an expert; building and construction planning and consultation; energy management, namely technical management of energy generation and distribution plants by providing technical know-how; technical operation of distribution and transportation networks, workshops, refuse treatment plants as well as of transformer stations by providing technical know-how; technical planning and technical operation of electric street lighting systems, of sewage treatment plants and of air conditioning systems; technical operation of telecommunication networks by providing technical know-how; services of an engineer, especially providing of services of an engineer for installations of transformation and application of energy; technical building management (included in this class); technical planning of waste water and fresh water systems; technical planning of energy systems; technical and ecological consulting services in the energy field, especially technical energy consulting for households, trade and industry; constructional and technical consulting in connection with energy-saving measures and in connection with the optimisation of heating systems; energy management, namely technical consultation and planning of energy generation and distribution plants, fuel cells, wind power plants and photovoltaic installations; technical planning, technical consultation, planning and technical management of energy generation and distribution systems, fuel cells, wind power plants and photovoltaic plants; technical management of waste water and fresh water plants as well as lighting systems and plants for gas supply; expertise preparation on technical questions with respect to energy, water, waste water and lighting equipment; development of integral energy concepts on a technical and ecological level (consultation on environmental protection and technical energy consultation); acceptance and granting of licenses; acceptance, execution and granting of research and development orders; research and development, especially in the field of environmental technology; services in all fields of energy and water management and supply, namely preparation of energy management analyses and technical concepts taking into consideration ecology and infrastructure; technical development of infrastructure plans; technical measurements of current and natural gas; technical water laboratory services; development of software architectures, modules and interfaces for electronic and electrotechnical equipment, component parts and systems; services in the field of forestry and agriculture, namely forestation research and consultation, biological research and consultation concerning integrated plant cultivation, research concerning manuring and harvest, technical input in the development as well as testing of electrically driven off track vehicles; technical consultation on, technical planning and operation (by providing of technical know-how) of cathodic corrosion protection of pipelines; technical planning and technical consultation with respect to cathodic corrosion protection of pipeline networks; technical operation of cathodic corrosion protection plants; technical planning, inspection and design planning of pipeline networks; technical operation of street lighting equipment (inc in this class); providing of services of an engineer for plants of transformation and application of energy; preparation of technical concepts for house building planning; services of a surveying office; preparation of construction drawings; technical participation in innovative and technology oriented enterprises as well as licensing of know-how and industrial property rights; technical planning and technical operation of waste and trash treatment plants, landfill gas-fired power stations and natural gas/solar heat plants; technical planning of telecommunication networks with integrated transmission method and switching including attributed network management; services of a communication technician, especially with respect to audio-visual media such as video pages and video boards

(included in this class); technical operation of geographical information systems; technical inspection of equipment, machines and plants of any type; network management, namely installation and maintenance of network systems (software); technical operation of cable infrastructures, wide area networks (WAN), local area networks (LAN), telecommunication systems, building installations and special networks, fire detection systems, detection systems and other media technology equipment; maintenance of Internet portals for third parties; consulting services on the use of search engines through a hotline; technical preparation of multimedia presentations by software programmes; consultation concerning the design of homepages and Internet pages; services of a data base, namely operation of search engines for the Internet; preparation and design of websites and parts of websites on the Internet by means of computer-generated images and sounds (computer animations); server administration; consultation for telecommunication technology; providing of computer programmes in data networks; design of homepages and web sites; services of an Internet agency, namely planning, maintenance and attendance of Internet contents, hardware and software consultation, implementation of edp programmes i network structures as well as digital storage of software, data, images, audio and/or video information; renting of data carriers with software, data, images, audio and/or video information stored on such data carriers; services of a certification authority (trust center), namely issue and administration of digital codes and/or digital signatures; digital imaging; renting of web servers; providing of memory space on the Internet; licensing of software; technical operation of Web stations; technical consultation concerning the Internet; verification of digital signatures; introduction of websites on the Internet for third parties (webhosting); development of software for Internet and intranet applications; providing of programmes for the creation of Internet pages and computer programmes; design and development of multimedia products for schools; award, registration and administration of domain names and e mail addresses; data storage and digital data processing for third parties (included in this class); scientific and technological consultation for waste and trash disposal; consultation in communications technology, technical consultation in the field of geographical information systems; technical management of energy, water and waste water plants and networks; technical operation of distribution networks; plant engineering services, namely design, of waste water and fresh water plants, conduits and other installations for their feeding and discharge, sanitary installations, heating, ventilation and air conditioning plants, industrial plants, mechanical equipment and their parts, technical devices, installations and apparatus for the safeguarding of buildings, plants, transportation means, domestic appliances, consumer electronics and information technology equipment as well as photovoltaic plants, utility service lines (e.g. gas and electricity), buildings and their parts.

(511) **Klasse 43:** Services for providing food and drink; temporary accommodation; operation of kitchens, canteens and restaurants; providing food and drink for employees and guests in canteens and casinos within the scope of enterprises, authorities and other public institutions.

(511) **Klasse 44:** Gardening services; domestic nursing and care services; consultation concerning manuring and harvest, consultation on stock breeding.

(511) **Klasse 45:** Personal and social services rendered by others to meet the needs of individuals; security services for the protection of property and individuals; services for the private household, namely cooking, shopping and child care; services in the field of domestic safeguarding; services of a security company; guarding of real estate; guardian services as a caretaker.

(591) **Farvetekst:** Blue, orange.

(511) **Klasse 04:** Technical oils and greases; lubricants; dust absorption, dust wetting and dust bonding agents; fuels (incl. motor fuels) and luminous materials; candles, wicks; gases as fuels; liquefied gases, industrial gases; liquefied and compressed natural gas.

(511) **Klasse 06:** Door chains; window handles with additional lock; lateral hinge safety device for windows; safety hardware; safety rosettes; safety striking plates; mechanical forced locking; protective plates for doors and windows; safety chains; mechanical break open catches; mechanical safety devices, especially safety devices for blinds; cellar shaft safety devices; cellar window safety devices; cellar safety gratings; locks (except electric locks), especially padlocks; long shackle type connectors, cable locks, helix cable locks; mortise locks; padlocks; armoured bolt locks; chain locks; additional case locks; alarm door locks; chain locks, all above mentioned goods out of metal.

(511) **Klasse 07:** Machines, namely automatic filling machines, heel production machines, suction machines for industrial purposes, separators (machines), painting machines, drive mechanisms except for land crafts, ash screens (machines), draught frames, mining machines, concrete mixing plants, binding machines, tin printing machines, drilling machines, crushers, comminution machines, stampers (machines), steam engines, compressed air machines, printing machines, wrapping machines, electromechanical machines for the chemical industry, degreasing machines, earth movers, crude oil refining machines, ore dressing machines, moulding machines, milling machines, dyeing machines, hoisting machines, filling machines, blowers, screw-taps, thread cutters, foundry machines, glass processing machines, railway track machinery, ditch excavation machines, engraving machines, electric hand drills, stapling machines, planing machines, adjusting machines, kneading machines, agricultural machines, chisel machines, knife grinding machines, metal working machines, riveting machines, paper production machines, polishing machines and apparatus (electric), embossing machines, straightening machines, stirring machines, tracklaying machines, grinding machines, cutting machines, welding machines (electric), screening machines, sorting machines for industrial purposes, dish washers, stone shaping machines, franking machines, road making machines, tobacco processing machines, tar spraying machines, dividing machines, typographical machines, whitewashing machines, packaging machines, washing machines, hosiery machines, centrifugal machines, comminution machines for industrial purposes, cutting machines and machine tools; motors (except motors for land crafts); clutches and devices for power transmission (except those for land crafts); not manually operated agricultural devices; incubators for eggs; electrical food processors including domestic electrical blending mixers (included in this class); installations for energy generation, namely wind power generators, machine driven hand tools; installations for energy generation, namely gas generators; installations for energy generation mainly comprising dynamos and/or electric generators and/or current generators and/or turbines (except for land crafts), hydraulic turbines or AC generators; crude oil refining machines.

(511) **Klasse 09:** Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, controlling, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity; electric measuring devices and instruments; magnetic recording carriers, recording discs; automatic vending machines and mechanisms for coin operated machines; cash registers; calculating machines; software, data processing equipment and computers; web pads; electric devices and products of information and communication technology (included in this class); electric devices, hardware and software for remote operation and remote control of devices and installations in the domestic field and in the garden; electronic computer networks (included in this class); electronic hotel guides; electric devices, hardware and software for the purpose of detecting functional defects (also by remote diagnosis) as well as of data transmission regarding such functional defects and the repair of such functional defects on domestic appliances and installations as well as in the garden (included in this class); fire-extinguishing apparatus; alarm systems; domestic safeguarding devices (alarm systems); burglar alarm systems; safety cameras; devices for reception, recording, transmission, processing, output and reproduction of data, speech, text, signals, sound and video; sound carriers, sound video carriers (except unexposed films), data carriers; sound recording devices, phototelegraphic devices, sound and video reception devices, tv sets, telephones, remote controls, transmitting and receiving sets, radio telegraphy sets, magnetic tape recorders for data processing, electric measuring instruments, monitors for computer hardware, computer peripherals, photocopying apparatus and machines (incl. electronic and thermal devices and machines), CD players,

projecting apparatus, video recorders, transmitters for electronic signals, video games as attachments for tv sets, make contacts, ammeters, circuit breakers, electric loss indicators, current transformers, commutators, fax machines, telecopiers, electric temperature indicators, audio amplifiers, sound reproduction units, telephone transmission apparatus, surveying apparatus and instruments, distribution cabinets for electricity, distribution panels for electricity, thermal control apparatus, electric counters, electric totalizers, time recording devices, time switches (not for clockworks); other electric counting devices; installations for energy generation, mainly comprising electric fuel cells; gasometers; electrochemical fuel cells for power generation; photovoltaic installations for power generation; gas meters.

(511) **Klasse 11:** Devices for lighting, heating, steam generation, cooking, refrigeration, drying, ventilation and water conduits as well as sanitary installations; electrochemical fuel cells for heat generation; photovoltaic installations for heat generation; fittings for gas and natural gas installations, namely gas pressure controllers as well as gas filters, natural gas preheaters, safety shut-off valves and blow-off valves for gas pressure controllers.

(511) **Klasse 12:** Vehicles; apparatus for locomotion by land, air or water.

(511) **Klasse 16:** Paper, cardboard and goods made out of such materials (included in this class); printer's products; bookbinding articles; photographs; stationery; adhesives for stationery or for household purposes; artists' supplies, paint brushes; typewriters and office supplies (except furniture); instructional and teaching material (except apparatus); packaging material out of plastic material (included in this class); printers' type; printing blocks; maps; atlases; hotel guides; printed products with information on installation work, repair services, handcraft services, plant engineering services, lock and key services, caretaker services, home help services, services in the garden field, services in the field of house and real estate administration, building and real estate business, technical and commercial building management.

(511) **Klasse 19:** Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal.

(511) **Klasse 32:** Mineral waters and aerated waters and other non-alcoholic drinks; fruit beverages and fruit juices; syrups and other preparations for making beverages.

(511) **Klasse 35:** Advertising; business management; business administration; office functions; advertising marketing of products and services of public energy and water utilities by business consultation, market research, public relations, organisation of exhibitions and trade fairs for advertising purposes, distribution of samples and presentation of goods for advertising purposes and by advertising; advertising marketing of telecommunication networks including the services which are based upon telecommunication networks for the transmission of speech, data and images as well as of multimedia value-added services by business consultation, market research, public relations, organisation of exhibitions and trade fairs for advertising purposes, distribution of samples and presentation of goods for advertising purposes and by advertising; advertising marketing of products for the cathodic corrosion protection by business consultation, market research, public relations, planning and execution of events in the field of public relations; organisation of exhibitions and trade fairs for advertising purposes, distribution of samples and presentation of goods for advertising purposes and by advertising; realisation of multimedia advertising presentations; management of installations for energy generation and distribution; procurement of personnel for building management services; bookkeeping with respect to building management measures; compilation of data in computer data bases; file management by means of computers; service of a price agency, namely determination of prices for goods and/or services; services of a multimedia agency, namely planning and organisation of advertising measures, presentation of companies on the Internet and in other media; execution of auctions, also in the Internet; supply order service, invoice settlement for electronic ordering systems, goods and services presentation; brokerage and renting of advertising surfaces, also on the Internet; providing of trade and offer contacts via the Internet; providing of trade contacts on the Internet; advertising on the internet for third parties; organisational and business consultation services in the fields of energy, fuel cells, wind power installations and photovoltaic installations; energy consultation for households, trade and industry (inc in this class); marketing services, namely marketing of new technologies, especially in the environmental and energy organisational and business consultation in the energy field; preparation of cost-price analyses in the field of building management; consumer consultation, also online. With respect to goods of daily use, luxury and utility articles as well as with respect to goods and services for commercial and industrial use; craftsmen agency, also online; motor vehicle fleet management system; expertise preparation on organisational and business questions with respect to energy, water, waste water and lighting equipment; business consultation in trade promotion; human resources, namely providing, recruitment, selection, management consulting of personnel, providing of temporary staff; organisational and business consultation in connection with energy-saving measures and in connection with the optimisation of heating systems; providing of personnel for the operation of power stations, especially hydropower stations, nuclear power stations, coal-fired power station, gas and steam turbine power stations, cogeneration systems, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and

wind power stations. photovoltaic installations and transformer stations; providing of personnel for the energy management, namely management of energy generation and distribution; providing of personnel for the operation of distribution and transportation networks; providing of personnel for the operation of workshops; providing of personnel for the operation of sewage treatment plants; providing of personnel for the operation and maintenance of telecommunication networks; providing of personnel for the operation of electric street lighting systems; providing of personnel for the operation of waste treatment plants; personnel leasing, namely providing of personnel for the installation, repair and maintenance of heating facilities, air conditioning systems, ventilation systems, sanitary facilities, management and control systems; temporary transfer of personnel; procurement of spare parts for third parties as well as procurement of technical and other consumables such as for example cleansing agents and toilet paper in connection with the maintenance and servicing of buildings; data management by means of computers; data storage and digital data processing for third parties; digital data preparation; digital data processing.

(511) **Klasse 36:** Insurance, conclusion of insurance (especially standard automobile public liability insurance, automobile personal liability and property-damage insurance and comprehensive coverage excluding collision), settlement of claims; financial affairs, monetary affairs real estate affairs; electronic capital transfer; home banking; telebanking, namely online settlement of banking transactions; financial consultation regarding investment of risk capital; leasing of transport networks for energy transmission; building management, namely renting of buildings; financial consulting services in the fields of energy, fuel cells, wind power plants and photovoltaic installations; financial energy consultation; development of integral energy concepts with respect to finance; financial consultation with respect to energy-saving measures and with respect to the optimisation of heating systems; financial services; house and real estate administration; building administration; financing of measures in connection with land development; financing consultation and financial planning in the field of building management; automobile leasing, financing of the acquisition of automobiles; real estate transactions of any type; granting of monetary loans and negotiation of loans; financial promotion of the development as well as of the testing of electrically driven off-track vehicles; financial participation in innovative and oriented enterprises.

(511) **Klasse 37:** Building construction namely construction of waste treatment plants, construction of power stations, especially hydroelectric power stations, nuclear power stations, coal-fired power stations, gas and steam turbine power stations, combined heating and power stations, heating stations; construction of landfill gas-fired power stations and natural gas/solar heat plants; construction of solar power stations, wind power stations, hydropower stations, biogas power stations; construction of power stations, especially hydropower stations, nuclear power stations, coal-fired power stations, gas and steam turbine power stations, cogeneration systems, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and wind power stations, photovoltaic installations and transformer stations; installation work; repair business, namely repair of network systems, energy networks, waste treatment plants, power stations, irrigation plants, alarm systems, electrical appliances, heating, air conditioning systems, refrigerators, telephones, stoves, office machines, machines, pumps, locks and automobiles; repair of data systems technology plants; network management, namely installation and maintenance of network systems (hardware); realisation (construction) and installation of distribution and transport networks as well as of transformer stations; construction of pipeline networks; construction and maintenance of energy generation and distribution plants, fuel cells, wind power stations and photovoltaic installations; maintenance of energy, fresh water and waste water plants and networks; realisation (construction) of cathodic corrosion protection plants; construction and maintenance of waste water and fresh water plants; technical building management, namely maintenance of buildings; cleaning of facades; plant engineering services, namely assembly, installation, maintenance, servicing, renovation, modernisation, enlargement, reconstruction, renovation and repair work of waste water and fresh water plants, conduits and other installations for their feeding and discharge, sanitary installations, heating, ventilation and air-conditioning plants, industrial plants, mechanical equipment and their parts, technical devices, installations and apparatus for the safeguarding of buildings, plants, transportation means, domestic appliances, consumer electronics and information technology equipment as well as photovoltaic plants, utility service lines (eg. gas and electricity), buildings and their parts; services in the field of the repair business, namely repair of data systems technology plants, network systems, distribution and transportation networks, waste treatment plants, power stations, energy generation and distribution plants, waste water and fresh water plants and networks, buildings, sanitary facilities, heating, ventilation and air conditioning systems, industrial plants, mechanical equipment and their parts, technical equipment and electric street lighting systems; cellular phone repairs; network management, namely installation and maintenance of network systems; maintenance of data systems technology plants; realisation (construction) of web stations; realisation (construction) and maintenance of electric street lighting; realisation (construction) of the supply and disposal infrastructure (lines and pipes for current, gas, water as well as for data, drains and sewerage system) in the development of building sites; road construction; c of building (inside and outside); repair, maintenance and servicing of automobiles inc performance

of the required inspections and checks; repair of motor vehicle fleets; cleaning of vehicles; installation of fixed network connections; construction, realisation (construction) and maintenance of cable infrastructures, wide area networks (WAN), local area networks (LAN), telecommunication systems, building installations and special networks, fire detection systems, detection systems and other media technology equipment; realisation (construction) and maintenance of telecommunication networks with the integrated transmission method and switching including attributed network management; construction and installation of distribution and transportation networks; construction of sewage treatment plants; construction of telecommunication systems, electroacoustic plants, transmitting and receiving sets, common antenna installations; installation and repair of transmitting and receiving sets, mainly comprising transmitter-receivers, antenna masts and radio receivers; installation and repair of common antenna installations, mainly comprising receiver antennae for radio and tv signals, antenna wire and wiring; realisation (construction) of consumer installations (for gas/natural gas, local heating, cold); construction of air conditioning systems; services of a painter; installation and maintenance work within the scope of services of an electrical fitter, sanitary titter, joiner, concrete worker, well digger, tiler, building constructor, road engineer, heat insulation worker, low temperature insulation worker, sound insulation worker, carpenter, electromechanic, heating and ventilation fitter, refrigerating plants' fitter, car mechanic, shopwindow constructor, titter, plumber, all above mentioned services (inc in this class); cleaning of apartments and buildings; ironing of laundry; furniture assembly and disassembly service; domestic automation, namely installation, repair and maintenance of heating systems, air conditioning systems, ventilation systems, sanitary facilities, management and control systems, each also by remote control; installation of apparatus and devices for remote operation and remote control of apparatus and devices in the domestic field and in the garden; repair business, namely detection of functional defects (also by remote diagnosis) and removal of such functional defects on domestic appliances and installations as well as in the garden; construction of refuse treatment plants; cleaning services as a caretaker.

(511) **Klasse 38:** Telecommunications, especially electronic brokerage of advertisements; operation of telecommunication networks with the integrated transmission method and switching including attributed network management; providing access to a world-wide computer network; providing of Internet access (software) and hence to texts, images, audio-visual offers, multimedia offers, databases and computer programmes on the Internet; providing of Internet accesses (software); e-mail data services; online services, namely transfer of messages, images and information of any type whatsoever; web messaging, namely forwarding of messages of any type to Internet addresses; consultation for telecommunications technology; providing telecommunication connections with a world-wide computer network; interactive videotext; telex services; broadcasting of television programmes and sound broadcast transmissions; telephone service; broadcasting of cable television programmes; communication by fiber optic networks; line, routing and connection services for telecommunications; mobile radiocommunications service; collection and delivery of messages; transmission of messages; transmission of messages and images by means of computers; electronic message transfer; renting of devices for message transmission; paging by radio broadcasting, telephone or by any other means of electronic communication; services of a press agency, especially collecting and delivery of press reports; satellite transmission; telephone service; telegraph service; telegraphing; telegram service; telegram transmission; information on telecommunications; telephone conference services; telecopying service; renting of telecommunication devices, especially of facsimile machines, modems, telephones; cellular phone lending and providing of stand-by cellular phones; Internet by call, namely providing of access to the Internet by separate dial-up into a network and separate invoicing without the necessity of a permanent contractual obligation with the network provider; operation of chatrooms, chatrooms and discussion forums on the Internet; data transmission via power grids (powerline); renting of fixed network connections; preselection telephony; call-by-call telephony; providing access to an e-commerce platform on the Internet; providing access to Internet portals for third parties; providing access to portals and platforms on the Internet; providing access to electronic information, communication and transaction platforms on the Internet; operation of service hotlines, namely telephone consultation on technical questions; providing and renting of access times to databases with search and polling possibilities.

(511) **Klasse 39:** Transportation; packing, storage and delivery of goods of any type whatsoever; arranging of travels; distribution of fresh water; providing of transport networks for transmission of energy for third parties for a consideration (included in this class); supply to third parties by distribution of gas, heat for heating purposes and energy, especially current, water, heat (local and district heat), cold, especially to industrial customers; as well as supply to third parties by delivery of current, gas, water, heat (local and district heat) and cold; renting of cars; collection, storage, dumping and transport of refuse; waste water disposal; logistics services on the transport sector; moving services, especially renting of vehicles for moving services; logistics services with respect to moving; transportation of goods and individuals with ships and automobiles; towing away of automobiles within the scope of the automobile roadway repair service; performance of moving services; transportation of goods by truck; providing of parking and store

space for third parties by parking space services and renting of parking space; operation of parking garages; administration of motor vehicle fleets; storage of spare parts for third parties as well as of technical and other consumables such as for example cleansing agents and toilet paper in connection with the maintenance and servicing of buildings; transportation of cellular phone for repair purposes (cellular phone repair pick-up service).

(511) **Klasse 40:** Material processing; technical treatment of water and waste water; waste water disposal by waste water treatment; fresh water treatment; recycling of waste and trash; recycling and disposal of waste and trash by compost preparation, chemical transformation, treatment, destruction and combustion; thermal disposal; destruction of waste and trash; generation of energy and heat (local and district heat); generation of energy by the operation of fuel cells, wind power plants and photovoltaic plants; exhaust air purification; incineration of waste and trash; key copying services; operation of refuse treatment plants; technical operation of power stations, coal-fired power stations, gas and steam turbine power stations, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and wind power stations, photovoltaic installations and transformer stations, solar power stations, wind power stations and bio-gas power stations.
