(511) **Klasse 07:** Machinery and machine tools, namely rolling mills, rolling mill cylinders, continuous metal casting machines, machines for cutting and slicing, machines for forming, oxygen cutting, milling, electric welding, stubbing, drawing metals, sheets and plates of metal, steel converters; motors and engines other than for motor-driven land vehicles and their component parts; couplings and transmission components.

(511) **Klasse 09:** Apparatus and instruments for scientific use, for weighing, measuring, signalling, monitoring, for instruction and education; apparatus and instruments for conducting, distributing, transforming, accumulating, regulation or control of electric current; apparatus for recording, transmission or reproduction of sound or images; magnetic, optical, image and sound recording media, CDs; measuring apparatus and instruments, for checking, testing, testing and inspection of the quality of materials, especially iron and steel products; data processing equipment such as computer software; multimedia training tools magnetic, optical, image and sound media.

(511) **Klasse 12:** Vehicles and apparatus for locomotion by land, sea and water; bodywork and bodywork components; bumpers, bonnets, suspensions, vehicle crossmembers, chassis, wheels, metal axles, rear and front drives of vehicles; engines for land vehicles.

(511) **Klasse 19:** Non-metallic construction materials, sheet metal, slabs, plates, sidings, flooring, roofing, cladding panels, sandwich panels, shaped sections, multilayer panels, partitions, all these goods being not of metal; non-metallic frameworks for building; transportable constructions, not of metal, non-metallic shelters and parts of shelters; shaped structures for residential use and small buildings for work activities not made of metal; non-metallic rigid pipes for building; non-metallic monuments.

(511) **Klasse 21:** Non-electrical utensils and receptacles for household and kitchen use; non-electrical utensils and receptacles intended for cooking and heating; bottles, drinking vessels, cans, flasks (not of precious metal); non-metallic boxes, including biscuit tins, for sandwich lunches, bread, soap, tea; aerosols, parts and components for aerosols (metal cans for aerosol spraying, caps, spring caps, valves) for non-medical use.

(511) **Klasse 39:** Air, rail, maritime and road transport of goods, air, rail, maritime and road transport of goods, especially of steel and metal materials; delivery of goods; packaging of goods; storage and warehousing of goods; storing of ores, metals and alloys; transportation by air, land and sea.

(511) **Klasse 40:** Treatment of materials; treatment of ores, steel, base metals and their alloys; all treatments of metals and all mechanical, thermomechanical or chemical transformation of the properties and characteristics of metals, direct reduction of steel, metal tempering, finishing of metal surfaces, brazing, casting, anodizing, chromium plating, sintering, galvanization, addition of phosphate, grinding, shaping, tinning, galvanizing, nickel plating, laminating, armor plating, cutting, polishing, magnetization, cladding, punching, stripping finishes, welding of metals, lining of metals, recycling of metal products; treatment of

materials in the process of manufacturing metal goods such as forging, pressing, deburring, machining, laminating and shaping of metals, vacuum treatment, nitrogen case-hardening, assembly of metal shapes; boilermaking.

(511) **Klasse 41:** Education; technical training and non-technical; editing and publishing of books, reviews, pamphlets, instruction and teaching manuals; education and publishing and electronic publication of books and periodicals; film production, clips and videotapes; production of radio and audiovisual programmes; holding of symposia, conferences, seminars, conventions; organization of exhibitions for cultural or educational purposes; organization of professional fairs other than for commercial or advertising purposes; sports and cultural activities; organization of competitions (education and entertainment); organization of games.

(511) **Klasse 42:** Scientific and technological services and research and design relating thereto, namely valuations, estimates and scientific and technological investigations, consultancy services; industrial analysis and research services, namely research and development of new products, chemical research, technical and mechanical research; design and development of computer software; client-base services, namely scientific and technological advice, information and assistance; advice, information and assistance in materials testing, mechanics research, and technical projects study; technical and scientific advice, information and assistance for improving the quality of goods and services in the field of metals, steels and their applications; expert opinions and evaluations in the field of metals, steels and their applications; advice, information and assistance over the choice and use of steels; expert opinions (evaluations) on steels and their applications; advice, information and assistance on building especially in connection with the choice and use of steels; the drawing up of building plans; mechanical engineering research; design (development), development of computer software designed for the iron and steel industry; design of global solutions for the building industry.

(740/750) **International fuldmægtig:** Lichtenstein, Körner & Partners, Heidehofstrasse 9, 70184 Stuttgart, Tyskland

(511) **Klasse 04:** Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor fuels) and lighting fuels; candles and wicks for candles; gases as fuels; liquid gases, industrial gases; liquefied and compressed natural gas (fuel).

(511) **Klasse 07:** Agitators, rinsing machines, washing machines, electric kitchen machines, including electric blenders for household purposes, included in this class; power generation plants, namely wind power stations; power generation plants, namely aerators; power generation plants essentially consisting of dynamos and/or generators of electricity and/or current generators and/or turbines (other than land vehicles), hydraulic turbines or alternating current generators.

(511) **Klasse 09:** Measuring, signalling and checking (supervision) apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electric measuring apparatus and instruments; magnetic data carriers, calculating machines; software; data processing equipment and computers; computer software for the remote control of electricity meters; computer hardware for the remote control of electricity meters; Web pads; electric apparatus and instruments for information and communication technology, included in this class; electric equipment, hardware and software for the remote operation and control of equipment and facilities in the house and in the garden; electronic computer networks (as far as included in this class); electronic hotel guides (software); electric equipment, hardware and software for the detection of malfunctions (also by remote diagnosis) and for the transmission of data relating to such malfunctions and the correction thereof in equipment and facilities in the house and in the garden, as far as included in this class; apparatus for receiving, recording, transmitting, processing, retrieving and reproducing data, voice, text, signals, sound and images; sound carriers, sound-image carriers (except raw films), data carriers; encoded telephone cards; sound recording apparatus, image transmitting apparatus, audio and video receivers, telephone apparatus, television apparatus, remote control apparatus, radiotelephony sets, radiotelegraphy sets, magnetic tape units for computers, electric measuring devices, monitors (computer hardware), peripheral equipment for computers, photocopiers and photocopying machines (including electronic and thermal apparatus and machines), CD-players, projectors, video recorders, electronic-signal transmitters, apparatus for games adapted for use with television apparatus, equipment for measuring current consumption, equipment for controlling current consumption, circuit closers, ammeters, circuit breakers, electric loss indicators, electric converters, electricity inverters, facsimile units, telecopying units, electric temperature-indicators, sound amplifiers, sound reproduction apparatus, telephone transmitters, surveying apparatus and instruments, electricity distribution boxes, electricity distribution boards, heat regulating apparatus, electric counters and meters, electric counting devices, time recording apparatus, timing devices (not for clockworks); other electrical sealers; electricity generation systems, mainly consisting of electric fuel cells; gasometers; electrochemical fuel cells for electricity generation; photovoltaic systems and electricity generation plants made; gas control devices (as far as included in this class); fittings for gas and natural gas, namely gas meters.

(511) **Klasse 11:** Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; electrochemical fuel cells for heat generation; photovoltaic apparatus and installations made thereof for heat generation; fittings for gas and natural gas, namely gas-pressure regulators included in this class as well as gas filters, natural gas pre-heaters, safety shut-off valves and release valves for gas-pressure regulators; gas burners, gas generators, gas lighters, gas lamps, gas boilers, gas condensers (other than parts of machines), gas scrubbing apparatus; gas scrubbers (parts of gas installations), regulating and safety accessories for gas apparatus and gas pipes and for water apparatus, freezers; electric lighting appliances; air-conditioning installations and apparatus; light diffusers, luminous tubes for lighting; fittings, apparatus and installation material for liquid natural gas installations (as far as included in this class), refrigerating apparatus and cabinets.

(511) **Klasse 12:** Vehicles; apparatus for locomotion by land, air or water.

(511) **Klasse 16:** Paper, cardboard and goods made from these materials, as far as included in this class; printed matter; bookbinding material; photographs; stationery; adhesives and glues for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching materials (except apparatus); packaging materials of plastics, included in this class; printers' type; printing blocks; maps, atlases, hotel guides (printed matter); printed matters with information about installation works, repair services, manual services, plant-engineering services, key services, caretaker's services, services of a domestic help, services in the field of gardening, services in the field of house and estate management, building and real estate industry, technical and commercial property management; stickers; stickers and labels (stationery), namely marked

or printed decals used to mark or decorate walls, windows, vehicles and other surfaces and articles; office requisites, namely memo pads (scribbling pads), memo boxes, ball-point pens, collections of recipes, printing blocks and exemptions, towelettes (of paper) included in this class, bags of plastics for packaging, phonecards (not encoded).

(511) **Klasse 18:** Leather and imitation leather as well as goods made thereof included in this class, in particular also bags and other containers not specially tailored to the items to be stored therein, as well as small leather articles such as purses, wallets, key cases; travelling trunks (luggage), umbrellas, sun umbrellas and walking sticks.

(511) **Klasse 21:** Appliances and containers for household and kitchen (not of stainless steel or plated), in particular cups, plates, bottle openers, corkscrews; combs and sponges; brushes (except paint-brushes); material for brush-making; cleaning utensils; glassware, porcelain ware and earthenware for household and kitchen, included in this class, works of art of made glass, porcelain and earthenware.

(511) **Klasse 25:** Articles of clothing, including leather wear, in particular T-shirts, hoodie-sweaters, pullovers, anoraks, sweatshirts, polo shirts, quilted jackets, quilted vests; footwear, headdresses, in particular beanies and caps.

(511) **Klasse 28:** Games, toys; goods for gymnastics and sports included in this class, in particular golf balls, flying discs, soccer balls, hand balls, water balls, tennis balls; Christmas tree decorations.

(511) **Klasse 35:** Advertising, business management; business administration; office functions; advertising and marketing of products and services of power and water supply companies by advising on business economics, marketing studies, public relations, organization of exhibitions and fairs for advertising purposes, distribution of trade samples and presentation of goods for promotion purposes and by advertising; designing of multimedia for trade samples and presentation of goods for promotion purposes and by advertising; advertising and marketing of telecommunications networks including the services based thereon, namely transmission of speech, data and images and multimedia value-added services by advising on business economics, marketing studies, public relations, organization of exhibitions and fairs for advertising purposes, distribution of trade samples and presentation of goods for promotion purposes and by advertising; market research, public relations, planning and realisation of events in the field of public relations; organization of exhibitions and fairs for advertising purposes, distribution of trade samples and presentation of goods for promotion purposes and by advertising; designing of multimedia presentations for advertising purposes; promotion (sponsoring) of sports and cultural events; business management of power generation and power distribution plants; compilation, processing and systemization of information into computer databases; computerized file-management; services of a price agency, namely investigating into prices of goods and/or services; services of a multimedia agency, namely planning and designing of advertising measures; presentation of business companies on the Internet and on other media; auctioneering, also on the Internet; delivery order service, invoicing for electronic ordering systems; presentation of goods and services; arranging and rental of advertising spaces, also on the Internet; arranging of business contacts for trading and offering via the Internet; arranging of economic contacts on the Internet; advertising on the Internet for others; business organization consultancy and professional business consultancy in the fields of energy, fuel cells, wind power stations and photovoltaic stations; consultancy in the field of energy for households, trade and industry, included in this class; marketing services, namely advertising and marketing of new technologies, in particular in the field of environment and energy; arranging of commercial transactions and contracts for others, in particular arranging of contracts for others on transport capacities and transport services using networks, also within the scope of e-commerce, reading of electric meters and counters for others, also on-line; preparation and evaluation of reading values gained from current meters, also on-line included in this class; Internet service for remote reading of current meters; business organization consultancy and professional business consultancy in the field of energy; consumer advice, also on-line, with regard to convenience goods, luxury goods and commodities as well as goods and services for commercial and industrial needs; procurement of contracts relating to craftsmen, also on-line, included in this class; expert opinions on organizational and business-economic issues with regard to energy, water, waste water and lighting installations; organizational and commercial advising on matters in connection with energy-saving measures and the optimization of heating systems; rental of vending machines for gas; reading of electric counters and meters for electricity, gas and water for others; marketing of industrial rights; production of commercial films; edition of printed products (for commercial purposes), in particular of brochures and leaflets; heat consumption reading and billing for heat energy supplied by other companies; gas consumption reading and billing for gas supplied by other companies (511) **Klasse 36:** Insurance underwriting, insurance brokerage (in particular automobile third-party insurances, comprehensive or partially comprehensive insurances), settlement of accident claims; finance, monetary transactions, building and real estate industry; electronic capital transactions, home banking, teleshopping, i.e. on-line processing of banking transactions; financial advising with regard to the investment of risk capital; leasing of transportation networks for the transport of energy; financial consultancy services in the field of energy, fuel cells, wind power stations and photovoltaic stations; financial consultancy on energy matters; development of comprehensive energy concepts in financial terms; financial consultancy in connection with energy-saving measures and optimization of heating systems; financial services;

financial support (sponsoring) of sports and cultural events; hire-purchase financing of vehicles; financing of vehicle acquisition; granting of money loans and arranging for credits; financial consultancy in the field of electric and thermic energy generation.

(511) **Klasse 37:** Construction; installation work; repairs, namely repair of network systems, energy networks, waste treatment plants, power stations, irrigation systems, alarm systems, electrical appliances, heating systems, air-conditioning systems, refrigerating systems, telephone sets, ovens, office machinery, machines, pumps, locks and motor vehicles; repair of data-technical installations; network management, namely installation and maintenance of network systems (hardware); maintenance of power, fresh-water and waste-water plants and network systems; maintenance of waste-water and fresh-water systems; installation, repair and maintenance of electric counters and meters for currency, gas and water; plant-engineering services, namely construction (assembly and disassembly), building, installation, maintenance, servicing, renovation, modernization (construction, installation and repair), expansion, modification, rebuilding (construction and repair) and repair of waste-water and fresh-water systems, lines and other installations for feeding and drainage, sanitary installations, heating, ventilation and air-conditioning systems, industrial plants, machineries and parts thereof, technical apparatus, systems and equipment for the protection of buildings, plants, means of transport, domestic appliances, equipment of entertainment electronics and information technology as well as photovoltaic systems, supply lines (e.g. gas and electricity), buildings and parts thereof; installation, servicing and maintenance of systems for the generation, transport and distribution of heat inclusive of measuring instruments for others; construction and maintenance of gas pipes and related installations, in particular blending, gauging and control stations as well as stations for importing and exporting gas, storage-type plants and telecommunications systems; repair services, namely repair of data-technical systems, network systems, distribution and transportation networks, waste treatment plants, power stations, power generation and distribution plants, waste-water and fresh-water systems and networks, buildings, sanitary installations, heating, ventilation and air-conditioning systems, industrial plants, machine plants and parts thereof, technical apparatus and electric street lighting; maintenance and repair of gas filling stations; maintenance and repair of gas-fuelled vehicles; maintenance of waste treatment plants, sewage treatment plants, gas storage plants, gas supply plants, gas transmission lines and related installations, in particular blending, gauging and control stations as well as stations for gas import and export of gas, storage systems and telecommunications systems, power generation and distribution plants, fuel cells, wind power stations and photovoltaic stations, natural gas/solar thermal systems, landfill-gas power stations, distribution networks, geographic information systems, cable infrastructures, wide area networks, local area networks, telecommunications systems, installations in buildings, special-purpose networks, fire alarm systems, detection systems and other media-oriented installations (hardware); network management, namely installation and maintenance of network systems (hardware); maintenance of data-technical systems (hardware); construction of Web stations (hardware); repair, maintenance and servicing of vehicles; cleaning of vehicles; installation of fixed-network connections; construction, establishment (construction) and maintenance of cable infrastructures, wide area networks, local area networks, telecommunications systems, installations in buildings and special-purpose networks, fire-alarm systems, detection systems and other media-oriented installations (hardware); construction and maintenance of telecommunications networks along with the transmission and switching technology including network management (hardware) related thereto; establishment (construction) and installation of distribution and transportation networks; construction of telecommunications systems, electro-acoustic systems, voice-communication systems, community antenna systems; installation and repair of voice-communication systems essentially consisting of radiophones, radio masts and radio receivers; installation and repair of community antenna systems essentially consisting of receiving antennas for radio and television signals, aerial wire and wiring; establishment (construction) of consumer systems (for gas/natural gas, short-distance heating, cooling); services of a painter; installation and maintenance works within the scope of services of an electrician, sanitary engineer, joiner, concrete worker, well sinker, paver, building-construction worker, road worker, specialist for thermal and sound insulation, carpenter, electro-mechanic, specialist for heating and air-conditioning systems, refrigerating-plant builder, all aforementioned services as far as they are included in this class; assembly and disassembly of furniture; automation of buildings, namely installation, repair and maintenance of heating systems, air-conditioning systems, ventilation systems, sanitary installations, regulation and control systems, each of them also remote-controlled; installation of systems and facilities for remote operation and control of equipment and facilities in the house and in the garden; repairs, namely detection of malfunctions (also by way of remote diagnosis) and correction of such malfunctions in equipment and facilities in the house and in the garden; installation and maintenance of computer hardware for the transfer of data for remote reading of current meters; operation of gas filling stations, namely fuelling of vehicles.

(511) **Klasse 38:** Telecommunications services, in particular electronic bulletin board services; rental of telecommunications networks together with the transmission and switching technology included therein and including the network management related thereto included in this class; providing user access to a global computer network; providing user access to computer programmes in

fortsættes

data networks; providing user access to computer programmes for the creation of Internet pages in data networks; providing access to software in data networks granting access to the Internet and thereby to text, images, audio-visual offers, multi-media offers, data bases and computer programmes on the Internet; providing user access to measured values of current meters on the Internet; email data services; transmission of data via the Internet; connection of Internet domains and email addresses in computer networks; on-line services, namely transmission of messages, images and information of any kind; Web messaging, namely conveyance of messages of any kind to Internet addresses; providing telecommunications connections to a global computer network; interactive videotext service; teleprint service; broadcasting of television programmes and radio programmes; telephony services; broadcasting of cable television programmes; communication via fibre-optic networks; telecommunications routing and junction services; mobile-phone services; collection and delivery of messages; transmission of messages; transmission of messages and images by computer; electronic transmission of messages; rental of equipment for the transmission of messages; paging service by radio, telephone or other means of electronic communication; services of a news agency, in particular collection and delivery of press reports; broadcasting of radio programmes; satellite transmission; telephone service; telegraph service; telegraphing; telegram service; transmission of telegrams; information about telecommunications; teleconference services; rental of telecommunications systems, in particular of facsimile units; modems; telephone sets; providing user access to information in data networks; rental of mobile phones and provision (rental) of substitute mobile phones; Internet by call, namely providing accesses to the Internet by separate dialling into a network and separate billing of each dialling without the need of entering into a permanent contractual relationship with the network provider; operation of chat lines, chat rooms and discussion forums on the Internet; transmission of data via electricity grids (powerline); rental of fixed lines; pre-selection telephony; call-by-call telephony; providing Internet portals for others; providing portals and platforms on the Internet; providing electronic information, communication and transaction platforms on the Internet; placing of Web pages on the Internet for others; provision and rental of access times to databases with data mining and data request facilities.

(511) **Klasse 39:** Transportation; packaging, storage and delivery of goods of all kinds; organization of travels; preparation and distribution of fresh water; rental of transportation networks for the transmission of energy to others included in this class; distribution of gas, heating power and energy to supply others, in particular customers in the industry, with, in particular, current, gas, water and heat (short-distance and long-distance heat) and refrigerant, and to supply others with current, gas, water, heat (short-distance and long-distance heat) and refrigerant; rental of vehicles; collection, storage, deposition and transport of waste; logistics services in the field of transportation; removal services, in particular rental of removal vehicles, logistics services with regard to removals; realisation of removals; distribution of fuels, in particular distribution of gaseous fuels by means of pipelines, storage of fuels, in particular in underground pore-space stores and caverns; supply and distribution of gas; supply of consumers with gas; conveyance of gas, generation, transport and distribution of heat from natural gas; heat generation, heat transport and heat distribution plants; LNG storage; transport, storage and supply of energy via the mains, also based on service contracts with third parties, as well as services in connection with the transport of gas and liquids, need-dependent distribution of current and other energy quantities via the mains; transport of gases and liquids, in particular of natural gas via the mains, also on the basis of services contracts with third parties and services in connection with the transport of gases and liquids, procurement of transport capacities within the mains of third parties included in this class; storage of gas, in particular of natural gas, for third parties; filling of gas into transport containers for others.

(511) **Klasse 40:** Material processing; generation of energy and heat (short-distance and long-distance heat); generation of power by operation of fuel cells, wind power stations and photovoltaic stations; conditioning of gas, in particular of natural gas and petroleum gas; treatment of gas, in particular liquefied gas, for others; chemical treatment to generate liquefied gas; reconstruction of supply lines (e.g. for gas and electricity) by means of material processing.
